# E-procurement Integration of GeM, Railways by Yr-End

Move expected to push procurement through GeM to ₹1 lakh cr in this fiscal

**Kirtika Suneja** | timesgroup.com  
New Delhi: India's national procurement portal for official purchases, Government e Marketplace (GeM), and the railways' e-procurement system are likely to be integrated by the end of this year, in a move to simplify and unify the buying and selling processes for ministries and other government agencies. The integration is expected to push the procurement through GeM to a whopping ₹1 lakh crore in this financial year, on par with the ₹1 lakh crore worth of purchases made on the portal since its inception in August 2016. "Higher procurement is reflecting on

**ADDING VALUE**  
GeM's gross merchandise value (GMV) in 2020-21 was about ₹59,000 cr

railway integration by October-November. We are looking at August to roll out a pilot, after which we could go live," said Prashant Kumar Singh, CEO, GeM. GeM's gross merchandise value (GMV) in 2020-21 was about ₹59,000 crore.

Singh said that without integration with the Indian Railways e-procurement system (IREPS), GMV of around ₹90 lakh crore is possible on the portal. "Integration with the railways' system is a complex process but we are on track," he said. The commerce and industry ministry launched the GeM on August 9, 2016 in place of the Directorate General of Supplies and Disposals to create an open and transparent procurement platform of commonly used goods and services for all government departments, ministries and public sector firms. It aims at streamlining procurement by the central and state governments, which together is estimated at ₹5.7 lakh crore each year.

# India Exports 8 Lakh Tonnes of Coal to Neighbouring Countries in FY21

New Delhi: India exported 8 lakh tonnes of coal to its neighbouring countries, including Nepal, in FY21. Of the total quantity, the maximum 72.1% was exported to Nepal, followed by 13.4% to Bangladesh, according to the Coal Ministry's Provisional Coal Statistics 2020-21. "Although, there was short supply of coal in India compared to the demand and had to resort to import of coal, India exported some quantity of coal to its neighbouring countries during 2020-21," it said. —PTI

# Pandemic Gets more Women into Diamond Cutting

**Surbansha Ghosal** | timesgroup.com  
Kolkata: Nearly 30,000 women have joined the diamond trade in Surat and its nearby areas since April and many more are expected to join in the next few months, according to the Global Jewellery Council of India. In this trade sector, women and triggered diamond cutters said it is their own choice.

and post-Covid they want to ensure financial stability at home," Dhananjay G. Mariani, secretary, Surat Diamond Association, told ET.  
The share of women in Surat's diamond trade has gone up to 4% in the past few years. "But this year alone, women workers will take this share to 7%," said Mariani.  
The diamond trade in Surat and its nearby areas employ about a million people. The Surat Diamond Association is an industry body, which works to help women when the Surat Diamond Bourse becomes operational in December.

The increase in women's participation augurs well for the diamond trade, also because it helps the trade mitigate the absence of migrant workers to an extent. Nearly 20% of the migrant workers have not returned since the outbreak of the second wave of Covid-19, according to industry officials.  
Diamonds need manpower as there is a high demand for polished diamonds in the international market, which has led to an increase in exports of polished diamonds and jewellery. India exported cut and polished diamonds worth ₹3,738.22 crore in the quarter to date, up from ₹2,600.02 crore a year ago.  
However, Gujarat's Diamond Workers Union said diamond merchants are not being able to recruit sufficient manpower as they are reluctant to increase the salaries of workers despite an increase in work.

# Younger People Are Driving Demand for Senior Living Homes in Pandemic World

**Falgun Haldar** | timesgroup.com  
New Delhi: Senior living residences have witnessed an increase in demand after two waves of Covid-19, as a younger set of people are now banking their futures on asset operators and consultants.  
While the demand for senior-care facilities has declined, there is a waiting period for ready-to-occupy premises as most of the seniors said that during the second wave of Covid-19, they said.  
"Earlier, most of our bookings used to be people in

the age group of 60-70 but after Covid, the average age of buyers is 40-45. The younger buyer is 40-year old and younger people are buying with friends so that they can live with them when they are old. The demand has increased three-fold times," said Mohit Nanda, CEO of Columbia Pacific Communities.  
The company, which operates 1,000 homes across 10 projects, plans to launch 1,000 homes every year. "Children who live abroad are keen to explore senior living facilities for their parents. Demand has gone through the roof and we will remain focused on developing senior living facilities in the south India market," said Nanda.

manpower as there is a high demand for polished diamonds in the international market, which has led to an increase in exports of polished diamonds and jewellery. India exported cut and polished diamonds worth ₹3,738.22 crore in the quarter to date, up from ₹2,600.02 crore a year ago.  
However, Gujarat's Diamond Workers Union said diamond merchants are not being able to recruit sufficient manpower as they are reluctant to increase the salaries of workers despite an increase in work.  
The majority of the elderly population, despite their financial resources, had been left to manage without anyone help or to deal with medical emergencies during the pandemic. This pushed many people in this age group to seek a home in a senior living facility.
