HT Upto 66KV & LT Aerial Bunched, Power, Control & Railway Signalling Cables, ACSR/AAC & AAAC Conductors.

After lockdown our marketing team procured orders worth Rs. 50 Crores. Our newly added segment of manufacturing cables for RDSO (Railways) has also been lucky to have new orders. Henceforth, the company is focusing more on International business with Advances technology Cables & Conductors for which various International agency approvals are under process. We are envisaging a serious boost in this particular segment in the coming times.

Existing contracts/agreements where non-fulfillment of the obligations by any party will not have significant impact on the business of the company.

The company is assessing the future impact of CoVID-19 on its operations, profitability liquidity position, and demand for its products/services. The company will update on these issues by the time of declaration of the financial results for the half year and financial year ended March 31, 2020.

Kindly take the same on record.
